- Tree Seedling Stock +100 pts on submit →

Spotted a spring not on the map? **Add it via Spring Monitoring.**

What We ***Can Offer You***

Individuals & Communities

Join thousands of environmental heroes making a difference across Indonesia. Earn points, and unlock eligibility to submit your own spring restoration project once you reach 20.000 pts.

Schools & Universities

Gain practical experience by collaborating with professionals on important water issues, learning conservation and management strategies, and being inspired to actively engage in global efforts to protect our planet's resources.

Businesses and Medias

Join forces to develop a CSR initiative centered around water restoration, aiming to create a substantial positive impact on the company's water footprint. For media, we provide expert support on water-related topic research and publications.

Donors & Philantrophies

Collaborates with Indigenous peoples and vulnerable communities to safeguard common resources and uphold human rights, particularly for climate adaptation and resilience
